

# **PC-Tron**

# Subminiature radial leaded fast-acting fuses

### **Product features**

- Radial leaded, fast-acting thru-hole fuse
- Ideal for high voltage DC applications
- Board washable
- Optional mounting socket available (PCS)
- Available in different lead configurations

| AC Time-Current Characteristics |                   |  |
|---------------------------------|-------------------|--|
| % of Amp Rating                 | Opening Time      |  |
| 100%                            | 4 hours minimum   |  |
| 200%                            | 10 second maximum |  |

# **Agency information**

cURus Recognized: E19180

### **DC Application**

The PC-Tron subminiature fuse is UL Recognized for DC supplementary overcurrent protection to provide individual protection for components or internal circuits in equipment. Suitability for a specific application is dependent on time constants and capacitance values. It is the responsibility of the customer to evaluate the information provided for applicability to their particular application.

PCS Mounting Socket (RoHS compliant): Available as option.
Specify catalog number BK/PCS (100 in a polybag) and short fuse lead length — PCC or PCE
